Skills

Programming Languages

Python, Proficient – scripting, data analysis
R, Proficient – data analysis
SQL, Intermediate – data queries, normalisation, joins
C, Familiar with – systems programming, memory management concepts
Java, Familiar with – object-oriented design, academic projects

Research and Soft Skills

Methodology, Proficiency in qual data collection and analysis (interviewing, participant observation, focus groups, thematic analysis), proficiency in discourse analysis (both qual and quant), good knowledge of quant data collection and analysis (surveys, questionnaires, statistical analysis, data visualisation using R), good knowledge of Participatory Action Research (PAR) methods.

Communication and Outreach, Proficiency in communicating across disciplines, public speaking to a variety of audiences, fostering participant relationships, recruitment across cultural lines, and ethically engaged research principles and practices.

Intercultural Collaboration, Good knowledge of how to position and communicate a qual project within a mixed methods or interdisciplinary project, proficiency in working collaboratively with research participants on shared goals outside research (real-world impact). Canada, UK, Philippines.

Theory, Proficiency in all major anthropological / sociological theories from past 100 years, contemporary ethnographic theory, cultural history of CS, contemporary debates in CS.

TECHNICAL SKILLS

Networking, Good knowledge of network protocols and architecture.

Cryptography, Strong knowledge of standard cryptographic protocols and key management.

Operating Systems, Strong knowledge of OS fundamentals (memory management, file systems, configuration) across Mac, Windows, and Linux. Experience in installing and configuring various Linux distributions, advanced disk management including partitioning and formatting, managing bootloaders (GRUB), kernel parameter tuning, automating maintenance tasks. Working knowledge of manual software installation via source builds and dependency management outside of package managers.

Scripting, Good knowledge of Bash, Python, and PowerShell scripting.

Typesetting, Strong knowledge of using LaTeX for academic writing, experienced with collaborative projects using Overleaf and also working with local compilers.

Reference Management, Strong knowledge of using BibTeX and BibLaTeX for managing academic bibliographies.

Docker, Working knowledge of containerisation, experience building images, using Docker Compose, and managing containers.

Environments, Good knowledge of interactive data analysis using Jupyter Notebooks and VS Code, visualisation, and research workflows integrating Markdown and code.

Version Control, Strong knowledge of using Git for version control, branching, merging, and collaborative workflows (e.g., GitHub).

Front End, Working knowledge of JavaScript, CSS, and HTML.

Other, Good knowledge of frequentist statistics and SQL databases.
